

Respiratory kardex

For ancillary department orders requiring pager notification (Respiratory Therapy) the time of the page is written on the order sheet next to the order; Co-sign each. . Last name and press F9 in Patient section; In Use Profile Format box, press F9 and select Pt Kardex – Treatment record and click on green check mark to print. The pt has COPD, Lung Cancer and has MRSA in her lungs. I have to say, I'm a bit freaked out by it. Kardex calls for contact precautions and a mask if coughing. I'm concerned if a simple mask is enough. Should I wear eye protection? I don't want to be wimpy, but I'm nervous about the respiratory MRSA. Treatment requires multiple pharmaceutical agents as well as extensive mechanical systems; Frequent reassessment requires immediate access to new information. Nurse. Respiratory therapist.
